KLOV FM serves me as a resident by providing wholesome family oriented programming. In a world where everything is dark, KLOV helps light the path. If left without KLOV in my community, we would be without a quality Christian station that has a great variety. Keeping KLOV on the air in my area would greatly benefit

our area by giving people the option to listen to something that is not vulgar or degrading. This station has the right idea. If any stations should be removed, they are the ones that promote violemce

and hatred, and trust me there are plenty of those. Please keep this station on. It is in the best interest of our being.
